

DW5130 SAMPLE INJECTION MOLDING MACHINE

Model No.

DW5130

Application:

DW5130 is a small-scale injection molding machine which allows you to efficiently prepare specimens from as little as 5g of material. It is designed as a piston injection molding system with dramatically reduced material consumption in comparison with conventional injection molding machine.

Related Standards:

STANDARDS

Note: this tester can conform to but not limit to all the standards above, for more standards conformance, please contact us.

Features:

- The Production of test specimens from as little as 5g of material
- Simple design for the exchange of molds with no tools required

- Specimen geometries offered from standard to unique, customized molds

Key Specification:

| | |
|----------------------|---|
| Injection Pressure | 1,200 bar |
| Capacity | 45g/15T, 56g/25T, 72g/35T please specified before order |
| Mould temperature | 250°C |
| Cylinder temperature | 400°C |
| Power supply | 380V 50HZ or as specified |
| Dimensions | 570mm x 660mm x 1 870mm |

Standard configuration:

| No. | Item | Quantity |
|-----|---------------------------|----------|
| 1 | Main machine | 1 set |
| 2 | Hydraulic pressure system | 1 set |

Optional Accessories:
